SOURCE [REDACTED]

25X1

Source observed at 10 a.m. on 26 December 1951, that a new type aircraft had arrived at Cottbus airfield. The plane [REDACTED] was fitted with two radial engines, a full-view cockpit in which the seats of the pilot and air observer were side by side, a plexiglass cupola on top of the fuselage, a rear gunner's station between the double rudder assemblies, and a nose wheel. This plane was used for training purposes. *

25X1A

* [REDACTED] Comment. The plane is a B-25. This aircraft was also observed being used for training purposes in Oranienburg before the bomber regiment stationed there was reequipped with type-27 aircraft.
